TARGA 58

Targa 58

Targa 58 *GRAN TURISMO*

Pioneering design defines this powerful sports cruiser. Look beyond the sleek, contemporary styling and the beautifully-equipped living spaces and you begin to understand the unconventional nature of this remarkable boat. It is huge on floor space and the room proportions appear to be in defiance of its true hull dimensions. Very few boats of this size celebrate the alfresco nature of being on the water as well as this Targa. The single-level living and galley area can undergo a striking transformation as the roof glides smoothly open and the large side windows drop down, giving the whole boat a sense of openness and inviting your surrounding environment in.

Convention has also been left behind as you move below deck. The forward cabin takes advantage of the 58's huge beam, removing any sense you would have of being in the bow of the boat. The en suite is simply huge, its sense of airiness enhanced by skylights in the shower that open to access the fresh air above. This is best described as a boutique hotel room on the water. Such comfort is not reserved exclusively for the owner; the two guest cabins also have spacious en suites and both are easily convertible from twin to double. Feature windows ensure that all rooms are light and airy and, characteristically, storage space is vast.

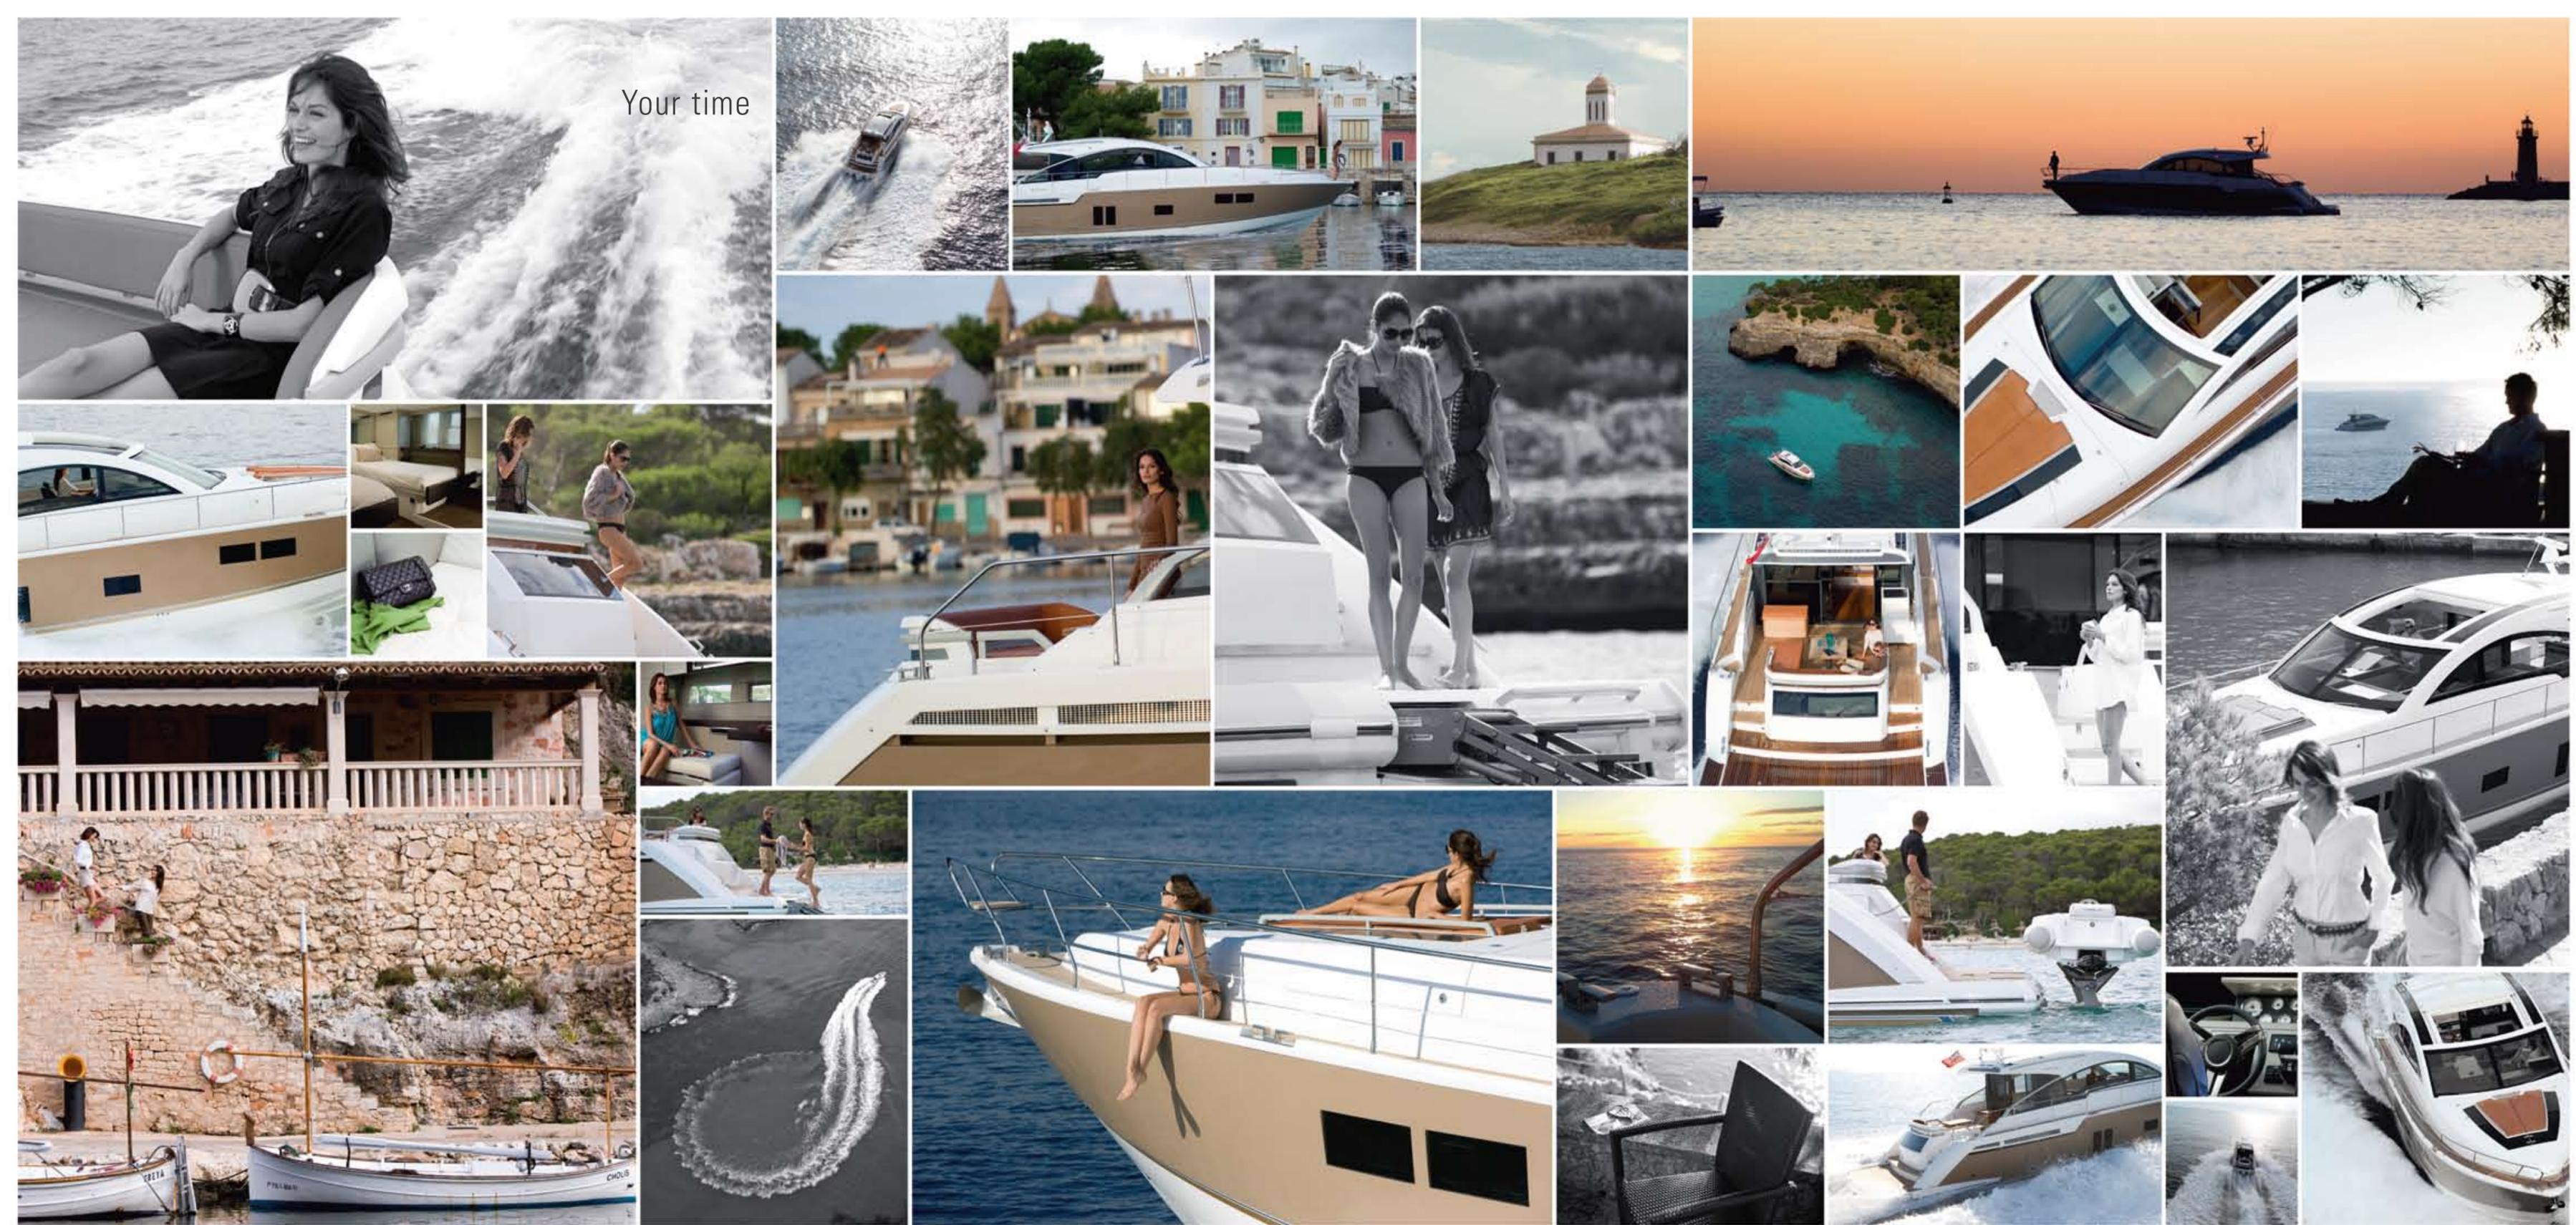

The free-flowing spirit of the Targa 58 continues outside with Fairline's hydraulically-powered Tender Launch System - its smooth cantilevered operation effortlessly lowers the tender into the water and retrieves it on your return. A hydraulically-powered sunshade extends all the way aft so you can continue to enjoy the outside space away from direct sunlight. While the optional hydraulic passerelle also acts as a swim ladder and allows for graceful entry and exit from the water and then simply hides itself away.

Your time

Targa 58

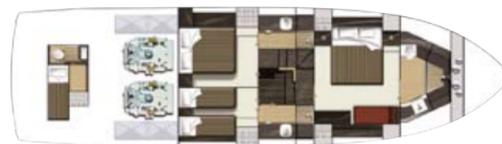

Key Features

- Retractable hardtop
- Power-drop down side windows
- Lazarette or optional crew cabin
- Single-level living and galley area
- Stunning full-width master cabin and en suite
- Guest cabins both convert to doubles and have their own en suites
